ONE BUILDING ON THE MAP. THIRTY-EIGHT ON THE CAMPUS.

TAFE NSW Richmond: each building drawn in Plotlay over NSW aerial imagery, coloured by where its outline came from.

Buildings by outline source

- Traced over NSW Imagery, started from the Microsoft footprint and fitted to the roof edges
- Traced over NSW Imagery (not in the Microsoft footprints)
- Microsoft footprint, picked as it is (a complex roof, not refined)

Buildings	In no open data	Microsoft offset, median m
38	5	2.23

Each building

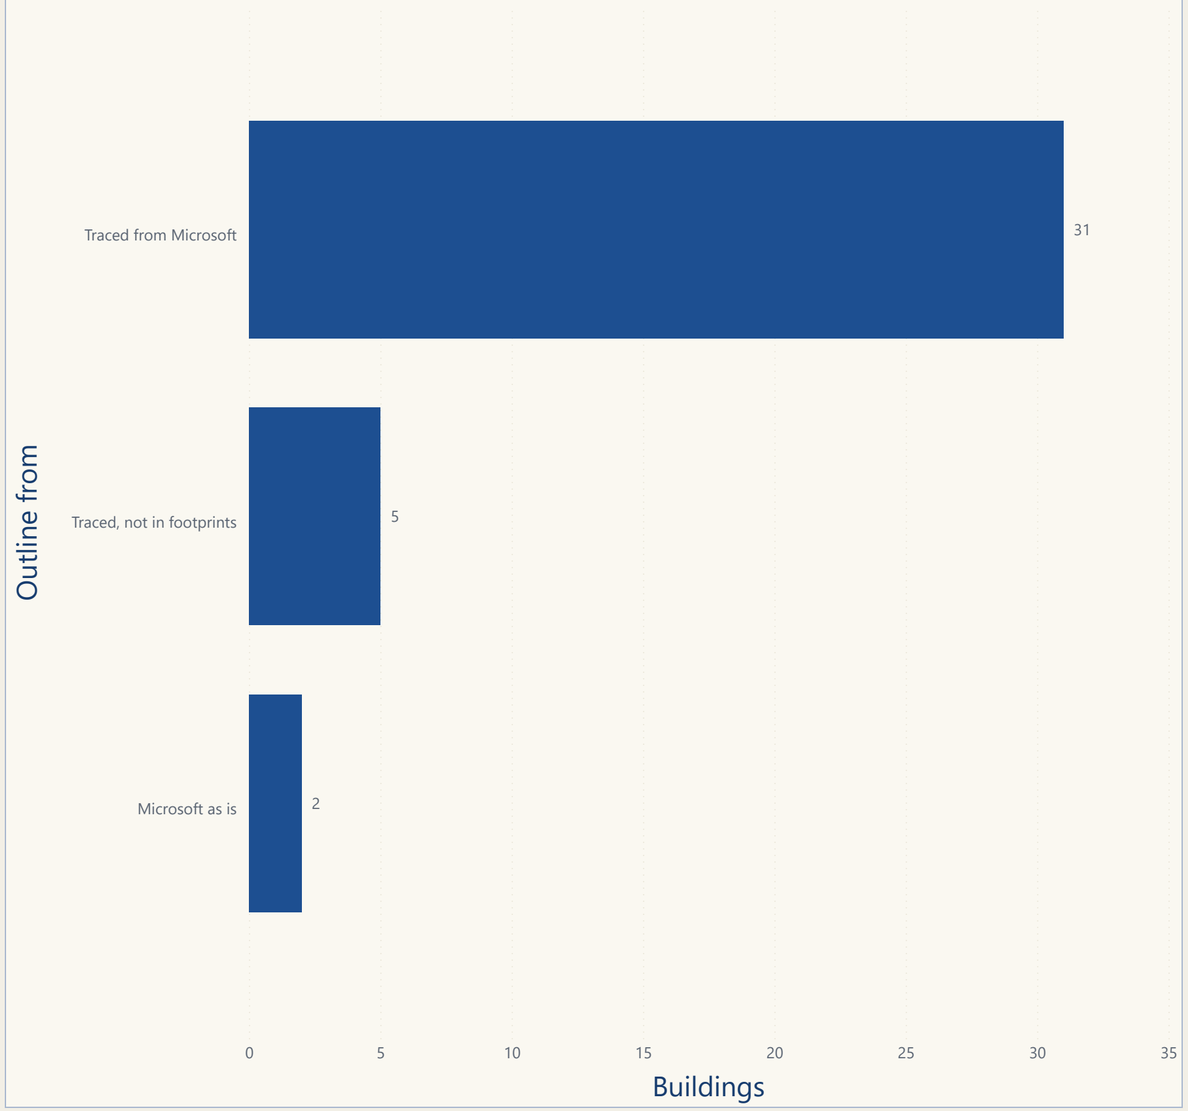

Building	Outline from	Accuracy (m)	Footprint (m²)	Microsoft offset (m)
B01	Traced, not in footprints	0.5	200	
B02	Traced from Microsoft	0.5	192	2.83
B03	Traced from Microsoft	0.5	624	1.67
B04	Traced from Microsoft	0.5	1,362	2.21
B05	Traced from Microsoft	0.5	914	2.44
B06	Traced from Microsoft	0.5	313	1.88
B07	Traced from Microsoft	0.5	305	2.24
B08	Traced from Microsoft	0.5	200	2.14
B09	Traced from Microsoft	0.5	812	2.16
B10	Traced from Microsoft	0.5	257	2.00
B11	Traced from Microsoft	0.5	196	2.02
B12	Traced from Microsoft	0.5	324	2.32
B13	Traced, not in footprints	0.5	39	
B14	Traced from Microsoft	0.5	634	3.13
B15	Traced from Microsoft	0.5	48	2.43
B16	Traced from Microsoft	0.5	667	1.50
B17	Traced from Microsoft	0.5	1,410	4.84
B18	Microsoft as is	2.5	866	
B19	Traced from Microsoft	0.5	384	2.17
B20	Traced, not in footprints	0.5	122	
B21	Traced from Microsoft	0.5	51	2.29
B22	Traced, not in footprints	0.5	41	
B23	Microsoft as is	2.5	2,957	
B24	Traced, not in footprints	0.5	143	
B25	Traced from Microsoft	0.5	89	2.13
B26	Traced from Microsoft	0.5	132	0.90
B27	Traced from Microsoft	0.5	364	1.66
B28	Traced from Microsoft	0.5	32	2.16
B29	Traced from Microsoft	0.5	261	3.29
B30	Traced from Microsoft	0.5	35	2.45
B31	Traced from Microsoft	0.5	1,055	1.48

Aerial imagery, and the outlines drawn over it: (c) State of New South Wales (Spatial Services), CC BY 3.0 AU. Two outlines from Microsoft Global ML Building Footprints, CDLA Permissive 2.0. Map context: NSW Cadastre lots and NSW Transport Theme roads (Spatial Services, CC BY 3.0 AU), ABS ASGS 2021 suburbs (CC BY 4.0). Shapes made in Plotlay (getplotlay.com). Accuracy depends on the imagery and how each outline was drawn.

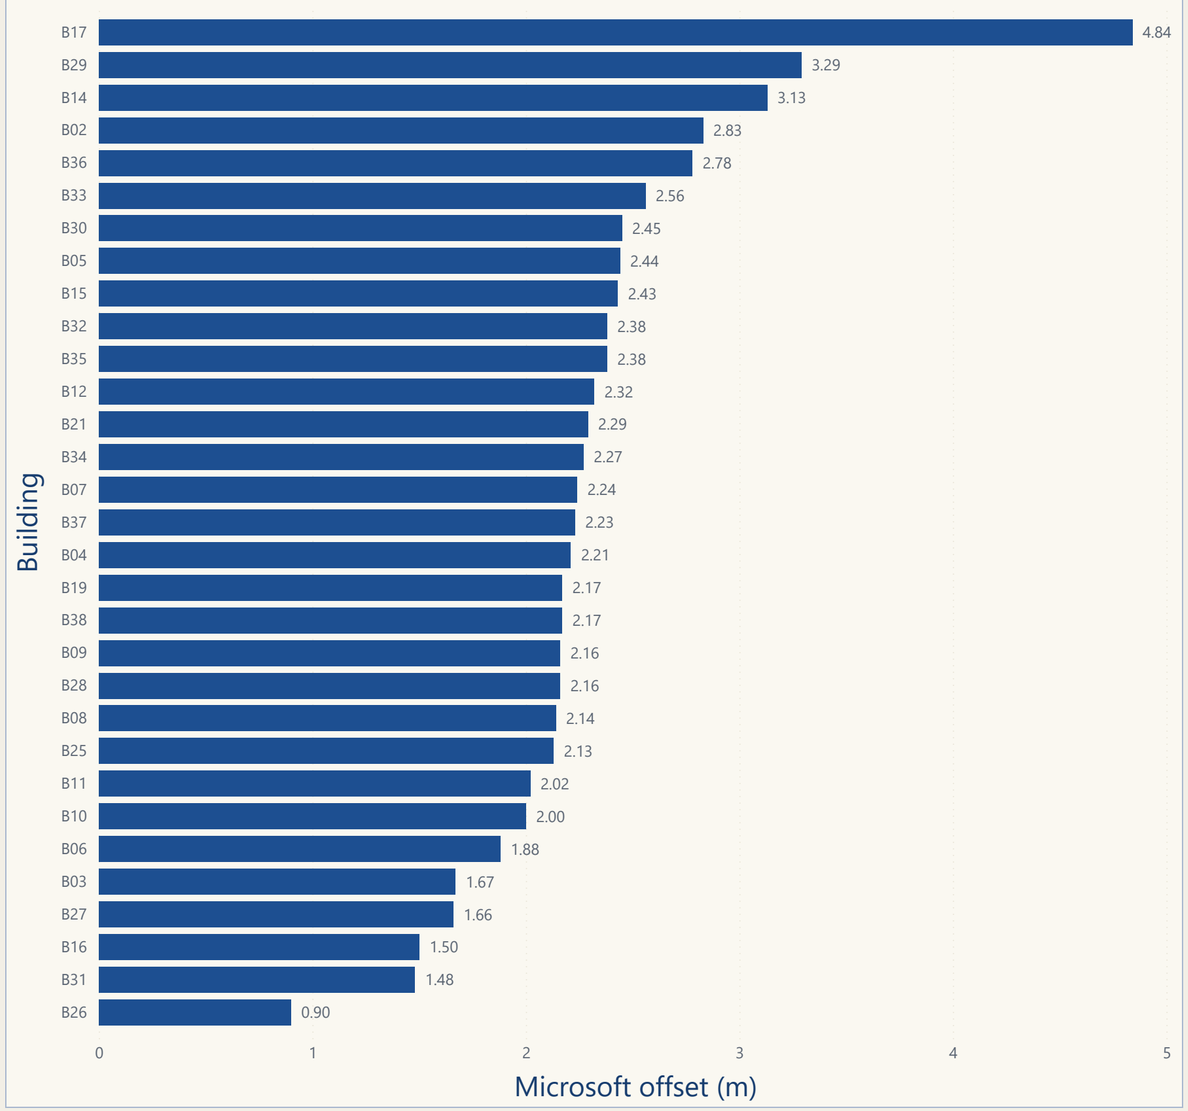

WHERE EACH OUTLINE CAME FROM

Buildings and footprint by source, and how far Microsoft footprints were off the roofs.

Buildings by outline source

Microsoft offset by building, m (buildings started from a Microsoft footprint)

Aerial imagery, and the outlines drawn over it: (c) State of New South Wales (Spatial Services), CC BY 3.0 AU. Two outlines from Microsoft Global ML Building Footprints, CDLA Permissive 2.0. Map context: NSW Cadastre lots and NSW Transport Theme roads (Spatial Services, CC BY 3.0 AU), ABS ASGS 2021 suburbs (CC BY 4.0). Shapes made in Plotlay (getplotlay.com). Accuracy depends on the imagery and how each outline was drawn.

WHERE THE RISK SITS

Every asset in the sample register by likelihood of failure (rows) and consequence (columns), the assets by risk, and each building by its assets at high or extreme risk.

Sample data

Assets (Sample data)

372

High or extreme (Sample data)

70

Past expected life (Sample data)

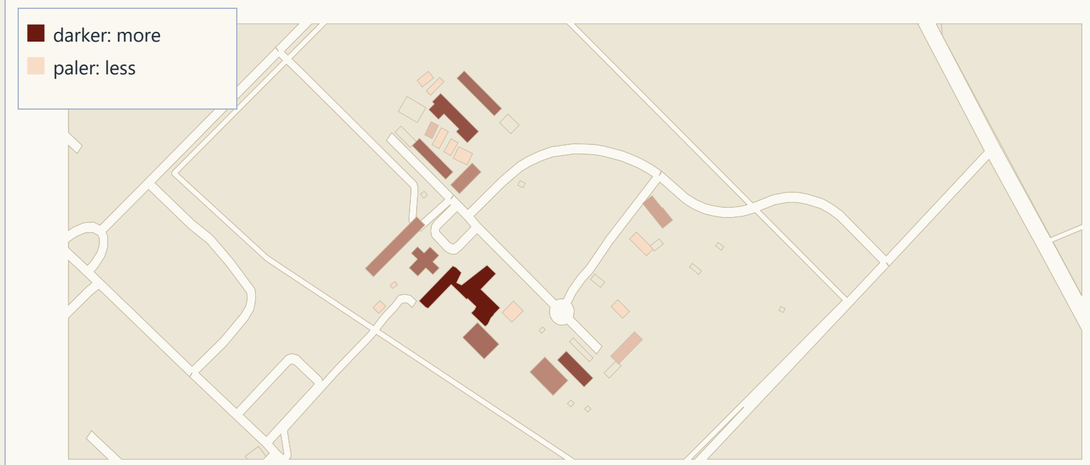

106

Consequence across the top, 1 minor to 5 severe; likelihood down the side, 1 rare to 5 almost certain.

Risk matrix: assets in each cell (Sample data)

Likelihood	1	2	3	4	5
1	15	42	63	8	1
2	3	13	31	6	2
3	8	24	35	10	1
4	5	38	46	12	
5		8	1		

Buildings by assets at high or extreme risk (Sample data)

Assets by risk, highest first (Sample data)

Asset	Asset type	Building	Score	Rating	Drivers
AHU-003	Air handling unit (AHU)	B23	16	High	Past expected life; Poor condition
FD-002	Fire door	B04	16	High	Past expected life; Poor condition; Life safet…
FD-015	Fire door	B32	16	High	Past expected life; Poor condition; Life safet…
FD-016	Fire door	B32	16	High	Past expected life; Poor condition; Life safet…
FD-017	Fire door	B36	16	High	Past expected life; Poor condition; Life safet…
RAP-004	Roof anchor point	B04	16	High	Past expected life; Poor condition
RAP-010	Roof anchor point	B14	16	High	Past expected life; Poor condition
RAP-011	Roof anchor point	B16	16	High	Past expected life; Poor condition
RAP-017	Roof anchor point	B23	16	High	Past expected life; Poor condition
RAP-020	Roof anchor point	B31	16	High	Past expected life; Poor condition
RAP-025	Roof anchor point	B36	16	High	Past expected life; Poor condition
RAP-026	Roof anchor point	B36	16	High	Past expected life; Poor condition
EXL-089	Combination exit and emergency light	B36	15	High	Past expected life; Poor condition; Life safet…
MSB-001	Main switchboard (MSB)	B23	15	High	Poor condition
AHU-002	Air handling unit (AHU)	B17	12	High	Past expected life; Poor condition
DB-005	Distribution board (DB)	B04	12	High	Past expected life; Poor condition
DB-010	Distribution board (DB)	B08	12	High	Past expected life; Poor condition

Sample data: these figures are not about TAFE NSW Richmond or any real building (data/sample/README.md says how they were made). Outlines drawn over NSW Imagery, map lots and roads: (c) State of New South Wales (Spatial Services), CC BY 3.0 AU. Suburbs: ABS ASGS 2021 (CC BY 4.0).

THE WORK ORDER BACKLOG

Open work orders by priority and building, and work orders raised over twelve months, reactive against planned.

Sample data

Open (Sample data)

33

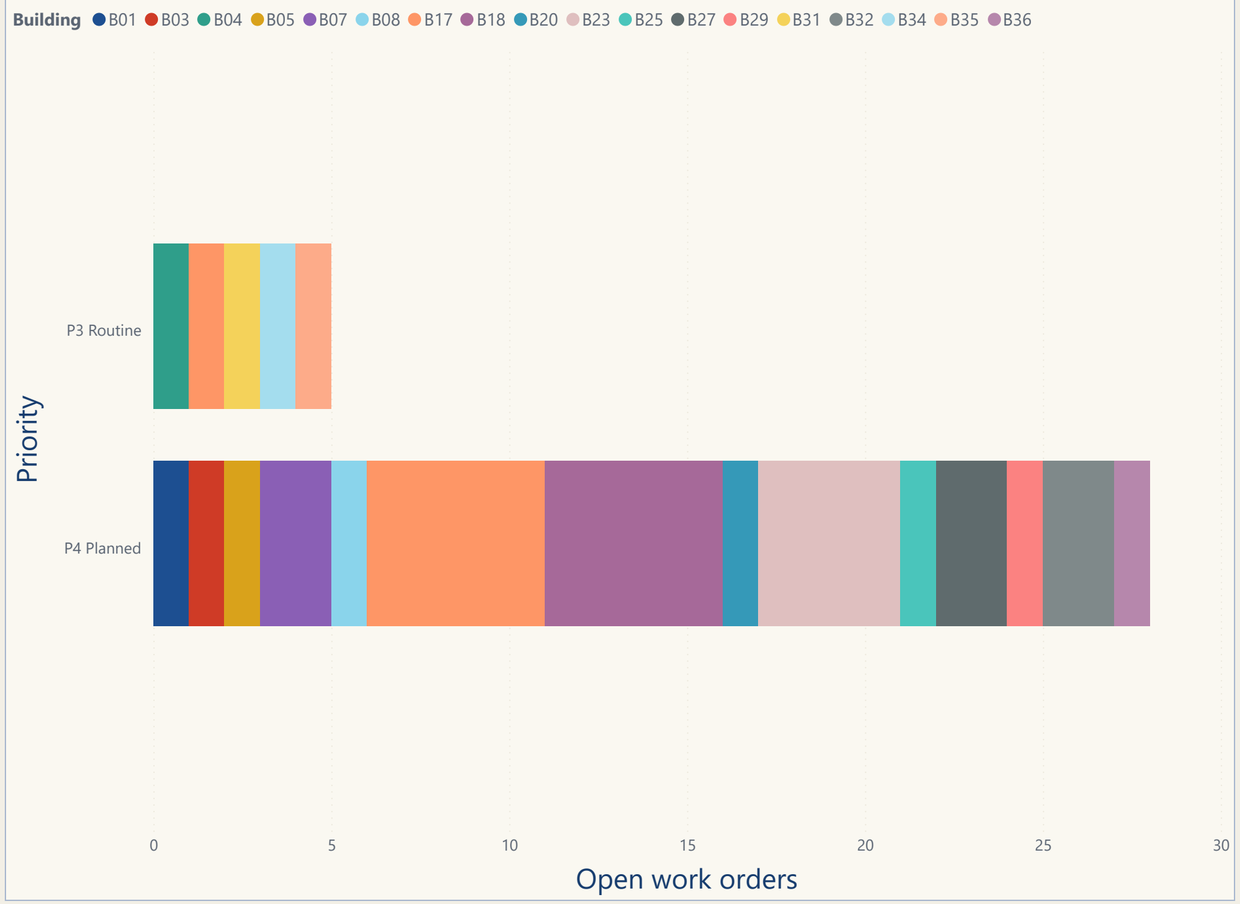

Overdue (Sample data)

9

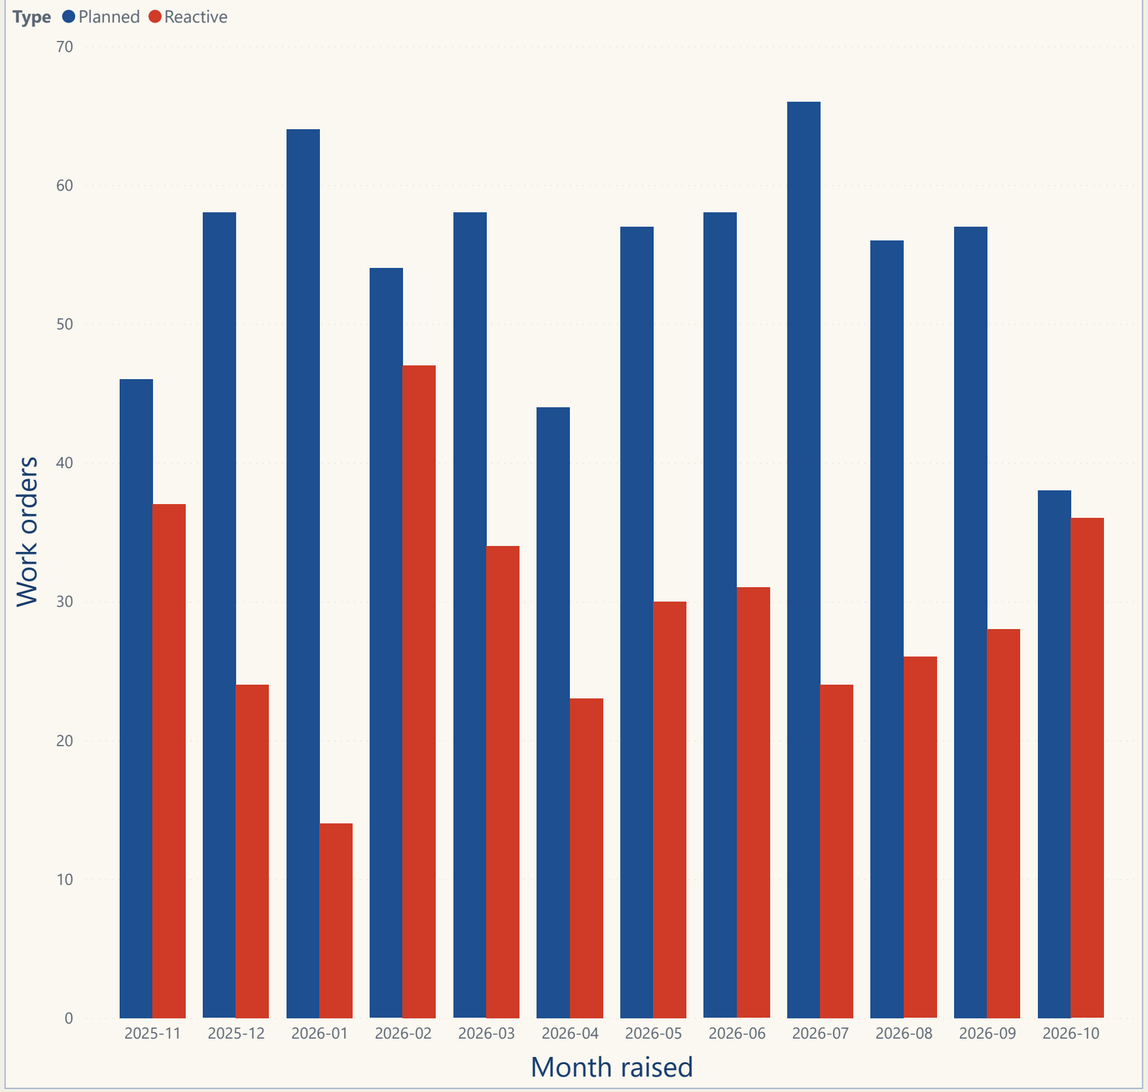

Raised in 12 months (Sample data)

1,010

Open by priority and building (Sample data)

Raised each month, reactive and planned (Sample data)

Sample data: these figures are not about TAFE NSW Richmond or any real building (data/sample/README.md says how they were made). Outlines drawn over NSW Imagery, map lots and roads: (c) State of New South Wales (Spatial Services), CC BY 3.0 AU. Suburbs: ABS ASGS 2021 (CC BY 4.0).

IS THE MAINTENANCE BEING DONE?

Planned maintenance done on time each month, essential safety measures by building and status, and the capital works backlog.

Sample data

Planned maintenance on time (Sample data)

88.1%

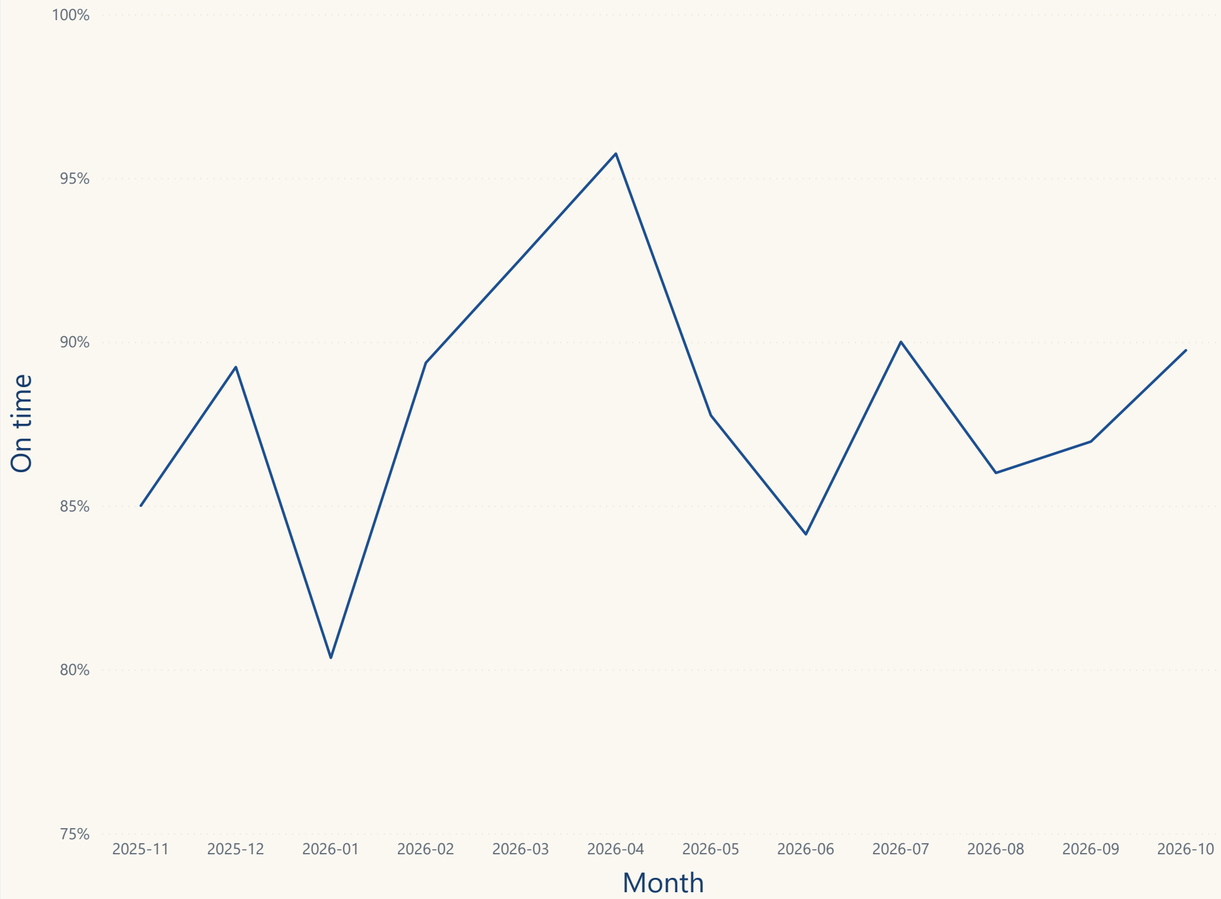

Safety measures overdue (Sample data)

8

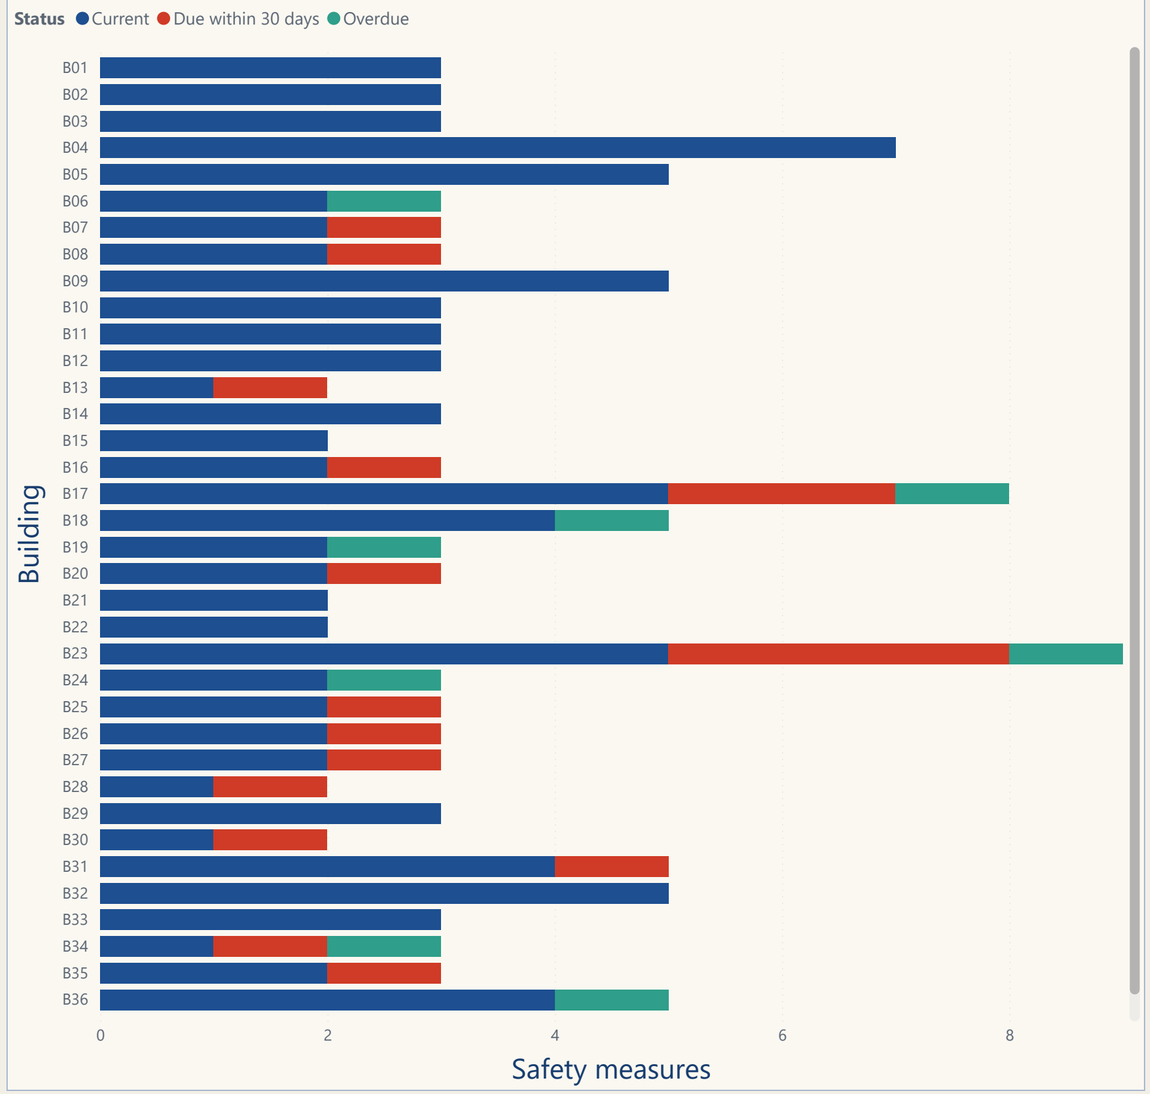

Capital works backlog, AUD (Sample data)

3M

Planned maintenance on time, each month (Sample data)

Essential safety measures by building and status (Sample data)

Sample data: these figures are not about TAFE NSW Richmond or any real building (data/sample/README.md says how they were made). Outlines drawn over NSW Imagery, map lots and roads: (c) State of New South Wales (Spatial Services), CC BY 3.0 AU. Suburbs: ABS ASGS 2021 (CC BY 4.0).
